Orange Star Stealth
instructions

step 1

Orange Star Stealth

One of the new units in the 2005 Nintendo DS turnbased strategy game Advance Wars Dual Strike is the Stealth.

Stealths are more powerful than regular Fighters and as an extra advantage, they are equipped with cloaking technology allowing them to Hide. Like a submerged Sub, Stealths burn extra fuel when cloaked, though!

Print the parts on some thick paper (I use 200 gsm myself) and get out your knife, glue and cutting mat!

step 2

Cut out, fold and glue together parts 1 and 2 as shown here.
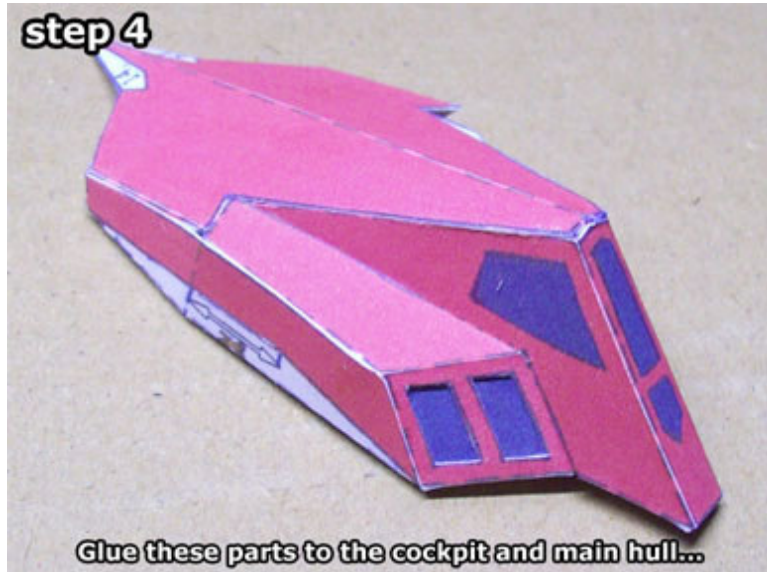

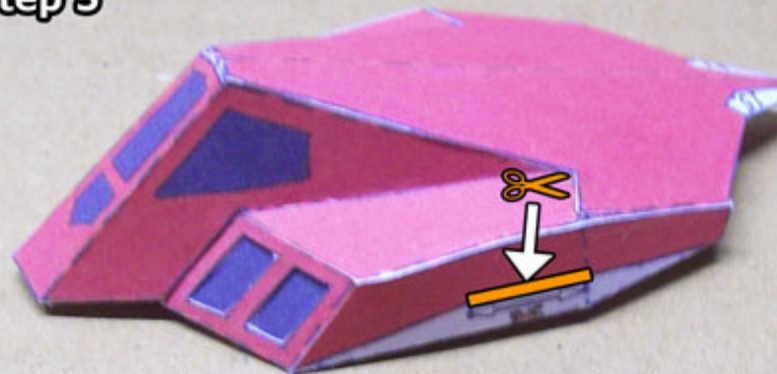

step 3

part 4

Cut out the holes and slit on part 3 and then glue it together.
Cut out part 4 and glue it behind the holes on part 3.

step 4

Glue these parts to the cockpit and main hull...

step 5

...and then do the same for parts 5 and 6 on the other side.

step 6

align with edge

Glue part 7 underneath part 2, aligning it with
the edges at the back.

step 7

fold over

Glue part 8 underneath the hull and engine parts, folding over the two small flaps at the front...

step 8

fold over

...and at the back.

**step 9**

Cut out and pre-shape part 9 and glue it to the hull and wing bottom, sliding the middle tab in the slit on part 5.

step 10

Do the same for part 10 on the other side.

step 11

Assemble parts 11 and 12 and glue them underneath the wings.

step 12

Fold part 13 kind like an accordeon...

step 13

...and then glue it into a cross shape.

step 14

Assemble part 14 and then slide part 13 down the slits
on the bottom. Then fold back the circular bottom flap.

step 15

Repeat this three more times, and then glue the four Omni-
missiles on the mounts underneath the wings.

step 16

part 15

part 16

Cut out and assemble parts 15 and 16 and glue them to the
tail of the plane as shown here.
